Mr. S. B. Gullekson was seriously injured on Tuesday, October 2, when he sustained five broken ribs, a severe cut on the arm, and a foot painfully crushed. The accident occurred late in the afternoon while Mr. Gullekson, his son Jerome and brother Clarence were moving a large cook stove. The stove had been loaded on a trailer attached to a car. The car had just started when the tongue of the trailer broke, throwing the two men and the stove to the ground. The stove fell on Mr. Gullekson, crushing his chest, and inflicting the injuries described. Mr. Clarence Gullekson received a number of cuts and bruises.

The injured men were attended by Dr. Ruth Harvey

POOL GUARANTEE IS BEING MET.

Announcement has just been made that the Alberta Wheat Pool for the third successive year has met its maturing obligations in full together with interest due to the Provincial Government in connection with the 1929 Wheat Pool overpayment.

At the time the government guarantee was agreed upon there was considerable misgiving as to the ability of the pool to make repayment in view of conditions in the wheat market. The record of repayment to date is reassuring. The pool has been doing a fair share of the grain business of the province.

It will be a most desirable outcome if the pool can pay off the government guarantee and thereby re-establish the equities of thousands of farmers in the big line of elevators.—Calgary Herald.

The three prairie Wheat Pools will co-operate in presenting a series of 13 radio talks during the fall months.

These talks will be given on Wednesday evenings from 8.15 to 8.30 Mountain Time, the Alberta stations being C.J.C.A., Edmonton Journal, and C.F.C.N. the Voice of the Prairie, Calgary.

The Practical and the Ideal

Alberta Pool Elevators is a creation of the agricultural co-operative movement and as such is closely knit to the families on the land who believe in and act upon the principles of co-operation in order to better their condition.

Commercial success is highly important but it is to be regarded only as a means to an end—the improvement of the living conditions of rural people.

The major function of this extensive country and terminal elevator system owned by Alberta farmers is to give support to their natural aspirations for a more secure rural tenure.

Both the practical and the ideal sides of the farm movement are united in Alberta Pool Elevators and on this basis a general appeal for support is extended to all grain growers.
